

### Bosch has the right solution!

Bosch steering systems stand out for their precise driving behavior and their easy handling. Workshops benefit from a broad portfolio of original spare parts based on decades of original-equipment experience, as well as setting new standards within the aftermarket.

#### Advantages at Glance

- **Long service life of steering systems:** the production meets latest standards and uses thoroughly tested material only.
- **Professional support:** Bosch provides comprehensive support for disassembly, assembly and putting into operation.
- **Reliable steering systems for a safe journey:** Bosch steering systems pass stringent functional and quality checks before being delivered to the customers.

#### Customer Benefits

- **Bosch quality,** means fewer failures and claims, increasing customer satisfaction.
- **High OE coverage,** providing a significant IAM market potential.
- New and Repair solutions enable **value-oriented repair.**
- **Correct identification** of the product and improving operation cost.
- **Growing market and future developments,** increasing business potential.
